

Spotlight on Precision

Soldering Accessories That Melt Hearts

Two new soldering aids, a third hand and a circuit board holder have joined the range of high-quality soldering stations, soldering irons and solder. Fully equipped with illuminated LED magnifier, goosenecks, soldering resin and soldering sponge, the new premium soldering aid is indispensable for all DIY projects. Soldering circuit boards, electronics repairs and modelling become easier than ever. Whether hobbyist or professional – the next soldering project is ready to roll!

Soldering Aid

with LED magnifier & 4 flexible arms

Magnification
1.75x and 4x

Incl. flux & soldering sponge

With 4 insulated crocodile clips

Soldering iron holder

Many Helping Hands

for full convenience with all DIY projects

Insulated crocodile clips
ensure increased safety when working with electronics

Gooseneck arms
for flexible positioning

Soldering iron holder
safe storage for the hot soldering iron

Soldering tip cleaner

Flux (soldering resin)

Cleaning sponge

Metal base
heavy and robust, rubberised for a secure stand

Crystal-Clear View

for precise soldering work on small objects

Accessory lens
with 4x magnification

100 mm

High-quality glass lens
with 1.75x magnification,
flexibly adjustable with the
gooseneck

LED ring
for even, effective
illumination

Perfectly Equipped

with all important soldering accessories

1x soldering tip cleaner
made of brass, effectively removes
residue on the soldering tip

1x soldering resin (rosin)
as flux for an even wetting of the
solder joint

1x cleaning sponge*
removes excess solder and deposits
on the soldering tip

*depicted in dry (left) and wetted condition (right)

Goobay

Soldering Aid with LED Light & Gooseneck Crocodile Dlip

helping hand for all fine soldering and handicraft work

- Holder for precision work on electronic parts such as circuit boards, also ideal in model making, arts and crafts and jewellery repair
- 3x magnifying glass with 90 mm diameter and illumination with 16 LEDs makes even fine detail work possible
- Flexibly adjustable goosenecks on magnifying glass and crocodile clip enable work from any angle
- The perfect addition to your soldering iron, equipped with an integrated solder wire holder, soldering iron holder, 3x crocodile clips, cleaning sponge, cleaning wool and soldering flux (rosin)
- Brass soldering tip cleaner effectively removes residue on solder tips and prevents rust buildup by dry-cleaning the tip
- Cleaning sponge removes excess solder and debris that accumulates during work (supplied in dry condition, expands on contact with water)
- Operated either via mains adapter (Europlug) or 4x AA batteries (batteries not included)

RRP

59.99 €

Goobay

Soldering Aid with Magnifying Lamp and Gooseneck Arms

helping hand for all fine soldering and handicraft work

- Handy soldering aid for a wide range of precision jobs and DIY projects, such as soldering circuit boards, jewellery repair, model making and painting
- With four gooseneck arms and crocodile clips for absolutely flexible positioning and a secure hold on the workpiece
- The insulated crocodile clips increase safety when working with electronics and protect the workpiece from damage
- Magnifier with 1.75x magnification, 40 LEDs and 100 mm diameter for ideal illumination and optimised working conditions
- Ideal as a supplement to the soldering station: with integrated solder holder, soldering iron stand, cleaning wool, flux (soldering resin) and 1x soldering sponge (supplied dry, swells on contact with water)
- The robust, heavy metal base (approx. 190 x 170 mm) with rubber coating to prevent slipping provides a secure hold while working
- Power supply of the LEDs via USB-C™ – perfect for operation via PC, laptop, power bank or charging adapter (cable USB-A to USB-C™ included, 1 m)

Soldering Aid with Magnifying Glass - Third Hand

helping hand for all fine soldering and handicraft work

- Holder for precision work on electronic parts such as circuit boards, also ideal in model making, arts and crafts and jewellery repair
- 2x magnifying glass with 2x LEDs and 90 mm diameter glass lens is perfect even for fine detail work
- The perfect addition to your soldering iron, equipped with an integrated solder wire holder, 2x crocodile clips and cleaning sponge
- Cleaning sponge removes excess solder and debris that accumulates during work (supplied in dry condition, expands on contact with water)
- Robust, heavy metal base to prevent slipping provides a secure hold while working
- The 2x LEDs in the magnifier are powered by 3x AAA batteries (batteries not included)

Third Hand with Magnifying Glass and 2.5x Magnification

helping hand for all fine soldering and handicraft work

- Ideal soldering aid for precision work on electronic parts such as circuit boards, in model making, arts and crafts and jewellery repair
- Flexibly adjustable ball joints and fixing screws perfectly position the workpiece when soldering, tinning or gluing
- Two 360° movable crocodile clips hold the workpiece securely and firmly in position
- Incl. magnifying glass with glass lens (Ø 59.7 mm) and 2.5x magnification for ideal working conditions, even on small objects such as soldering points on circuit boards or cable ends
- The robust cast iron base ensures that the holder stands securely during work (total weight: 384 g)
- Arm span incl. crocodile clips: 26.5 cm

51199 Retail Box

RRP **10.99 €**

Third Hand with Magnifying Glass and Soldering Iron Stand

helping hand for all fine soldering and handicraft work

- Handy soldering aid for a wide range of precision jobs and DIY projects, such as soldering circuit boards, jewellery repair, model making and painting
- Two 360° adjustable crocodile clips guarantee a secure hold of the workpiece. Arm span incl. crocodile clips: 26.5 cm
- Flexible ball joints and wing nuts position the workpiece individually and precisely
- Incl. magnifying glass with glass lens (Ø 60 mm) and 2.5x magnification for work on small objects such as soldering points on printed circuit boards or cable ends
- The soldering iron holder provides a safe place to put the heated soldering iron
- Incl. soldering sponge for quick cleaning of the soldering tip during work
- The robust cast iron base provides a secure hold for the device. Total weight: 500 g

Soldering Aid with Gooseneck Arms and Soldering Iron Stand

helping hand for all fine soldering and handicraft work

- Handy soldering aid for a wide range of precision jobs and DIY projects, such as soldering circuit boards, jewellery repair, model making and painting
- With two gooseneck arms and crocodile clips for absolutely flexible positioning and secure hold of the workpiece
- The gooseneck arms glide forward and backward separately using a sliding mechanism in the base
- The insulated crocodile clips increase safety when working with electronics and protect the workpiece from damage
- The soldering iron holder provides a safe place to put the heated soldering iron and can be mounted facing either of two directions thanks to the cross-slot inlet
- Incl. cleaning wool and soldering sponge for quick cleaning of the soldering tip during work
- Note: The soldering sponge is supplied in dry condition and expands on contact with water

Digital Soldering Station EP5, 48 W

digital soldering station set with large illuminated LCD display (60 x 30 mm)

- The soldering station is ideal for precision work in electronics and model making as well as for pyrography.
- The desired soldering temperature can be precisely set in 1°C increments using the up/down buttons
- With a power input of 48 W, the soldering iron has a short heat-up time and reaches 330 °C in approx. 90 seconds
- The protective insulated housing and a stable base provide a high level of safety when soldering.
- The simple locking system is perfect for the quick and uncomplicated changing of soldering tips
- Thanks to the handy soldering sponge, the soldering tip can be cleaned while you are working.
- One soldering tip is included, spare soldering tips: 51073

51098 Retail Box

RRP 104.99 €

Analogue Soldering Station AP2, 48 W, Grey

suitable for precision work in the hobby and craft sector

- The soldering station with an integrated soldering iron stand is ideal for precision work in electronics and model making as well as for pyrography.
- The temperature is infinitely variable in a range from 150 to 450 °C via a control dial.
- The fast heat-up time of the soldering iron thanks to 48 W of capacity ensures a short waiting time until it is ready for operation.
- The protective insulated housing and a stable base provide a high level of safety when soldering.
- The easy-lock system allows for quick and uncomplicated changing of the soldering tip.
- Thanks to the handy soldering sponge, the soldering tip can be cleaned while you are working.
- One soldering tip with a diameter of 1.5 mm is included, spare soldering tips: 51092

Soldering Set and Tool Set in Handy Bag, 20 Pcs

accessory set with soldering iron, screwdriver, phase tester, pliers

- Compact tool case (34 x 21 x 5 cm) with basic equipment for soldering and DIY work - handy for at home and on the road
- Soldering: 1x soldering iron 30 W, 1x desoldering pump, 1x lead-free solder, 1x soldering grease (rosin)
- Incl. protective cover, which is put over the still warm soldering iron to protect the case from heat damage
- Screws: 6x screwdrivers (slot and cross 1x 75 mm, 1x 75 mm, 1x 125 mm), 1x phase tester, 1x 6-piece precision mechanic screwdriver set
- Pliers: 1x flat nose pliers, 1x diagonal cutter, 1x multi-purpose knife with snap-off blades, 1x tweezers, 1x gripper
- Crimping: 1x crimping pliers, 1x wire stripper, 1x measuring tape

Replacement Soldering Iron

for the soldering stations EP5 (51098)

- Wired soldering iron for the soldering or fusion welding of electrical components
- Heated metal tip for precise soldering and welding work, which also protects sensitive components
- Rubberised, insulated handle prevents slipping and burns during work
- Easy to connect to the EP5 soldering station
- Thanks to the quick-release fastener with union nut, the soldering tip can be changed quickly and easily
- Spare soldering tips: 51073

Soldering Tip Cleaner Set

incl. cleaning wool, metal holder and suction cup

- The soldering tip cleaning ball cleans the surface of soldering iron tips without damaging them
- Effectively removes residues on soldering tips and prevents rust deposits on the tip thanks to dry cleaning
- Lightly piercing and twisting the spiral wool gently removes deposits from the soldering tip
- More effective than cleaning with water, as dry cleaning does not reduce the temperature of the soldering tip but maintains it – no reheating required
- The suction cup easily attaches the holder to tables and other work surfaces – for comfortable working without slipping off
- The soldering tip cleaning kit is suitable for all soldering stations and soldering iron tips
- The brass wire is smokeless, odourless and non-toxic

Solder Lead-Free

content: 0.3 % silver, 0.7 % copper, 99 % tin, content of flux core: 2,5 %, melting point 217° C

- Flux-filled solder wire ideal e.g. for soldering of delicate components, soldering electronics, wires
- Simple, homogeneous wetting of the solder joint thanks to the rosin flux core
- No-clean solution with continuous flux cores that saves cleaning the solder joint after use
- Reduced spattering for increased user safety and protection of the workpiece
- Halogen-free and with low smoke emission
- Perfect for soft soldering at low temperatures in the automated and hand soldering area

Heat Conductive Paste, in Handy Squirts, 2 ml

suitable for CPU, GPU in PC, Playstation, Xbox etc.

- Ideal for use on chips, avoids air spaces between CPU and cooler, can be applied particularly thinly.
- Silicone-free and suitable for medium temperatures
- Long durability due to special structure
- Safe and easy application even for beginners due to the ideal consistency
- High thermal conductivity guarantees fast heat dissipation from CPU/GPU.
- Completely metal-free, eliminates the risk of short circuits and discharges, avoids corrosion damage to the radiator bottom and thus protects your computer.
- Resealable packaging prevents the paste from drying out.

Solder Paste, 50 g Can

soldering paste for soldering electronic components

- Solder paste made from zinc chloride for soft soldering of electrical contacts, printed circuit boards, SMDs, cables, copper, tin, etc.
- The soldering paste quickly and effectively helps to dissolve old solder and create new, clean solder joints
- Ensures optimised wetting of the workpiece with solder thanks to the surface tension-reducing effect of the flux component
- Supports the formation of the alloy during the soldering process
- Promotes the formation of the alloy during the soldering process
- Easy to use: Simply apply solder paste to the surface or to the desoldering braid before soldering

Desoldering Wire 1 mm for Removing Solder from Solder Joints, 1.5 m

pure copper, good thermal conductivity

1 mm

2 mm

- Fine copper mesh for removing solder residues and optimal preparation of the solder joint.
- Made of pure copper, resistant to oxidation and corrosion, good thermal conductivity, low residues, no breakages
- Help for removing solder residues. For desoldering, the desoldering wire is heated with the soldering iron on the solder to be removed
- Heated tin is absorbed by the stranded wire and thus removed from the solder joint
- Remove more solder than conventional wicks and correct slight defects on small PCBs
